SUMMARY

Hey there! I'm Vishal Kumar, a dedicated student at the Institute of Engineering and Management, specializing in Information Technology. My passion lies in bringing projects to life through coding and innovation. Whether it's developing sleek web applications or crafting efficient command-line interfaces, I thrive on the challenge.

I'm driven by the opportunity to learn and make a difference with my skills. I love collaborating on exciting projects and continuously push myself to innovate and improve. My goal is to use technology to drive positive change, and I'm always eager to take on new challenges and grow both personally and professionally.

EDUCATION

Institute of Engineering and Management
BTECH in Information Technology

📅 2022 - 2026

SKILLS

Tailwind CSS Javascript Typescript

React Js Express Js Node Js MongoDB

Next Js Prisma Postgres Supabase

Git Python Docker Zod Mysql

PERSONAL INTRESTS

- Cooking
- Reading Books
- Sports
- Listening Music

PROJECTS

Concept Hub

- Developed a versatile platform for organizing and managing various types of content, such as notes, tasks, and documents, offering users a comprehensive tool for productivity and information management.
- Utilized Next js 15, Drizzle and Supabase for real time collaboration.
- Gained significant experience in building a feature-rich productivity application, enhancing skills in both user interface design and backend development. Acquired insights into creating a seamless user experience and integrating complex functionalities.

WriteFlow

- Developed a Blog application that allows users to write, publish, and interact with blog posts, including features for commenting and liking posts to enhance user engagement.
- Utilized a full stack of technologies including Node.js, Express.js, MongoDB, and React to create a dynamic and interactive platform
- Gained hands-on experience in full-stack development, integrating multiple technologies, and enhancing user interactions. Learned valuable skills in both backend and frontend development, as well as improving user experience through real-world application design.
